Profile

I am a B.Sc. Computer Science graduate with a strong foundation in backend development using Node.js and Express.js. I have hands-on experience building REST APIs, JWT authentication, and microservices, along with database experience in MongoDB and MySQL. I have also worked as a Technical Trainer teaching backend technologies, which strengthened my core concepts and problem-solving skills. I am eager to start my professional career as a Node.js Backend Developer and contribute to real-world applications.

Education

B.Sc. Computer Science - 8.15

8 oct 2021 - july 2024

Madurai Institute Of Social Sciences

Skills

- **Backend:** JavaScript, Node.js, Express.js, REST API Development, Microservices Architecture
- **Database:** MongoDB
- **Version Control & Tools:** Git, GitHub, Postman
- **AI Tools:** ChatGPT, Claude, Gemini, Perplexity

Work Experience

TechyAsylum

sep 2024 - oct 2025

- Started as a backend trainer, teaching Core Java and basic Node.js, and covering database concepts using MySQL and MongoDB through practical sessions.
- Strengthened my technical and communication skills by guiding students and resolving their doubts.
- Gradually took on additional responsibilities including business development activities.
- Conducted seminars in colleges and delivered PPT presentations to promote courses.
- Also supported management tasks and contributed to digital marketing initiatives in a startup environment.

Projects

EcomMicro [🔗](#)

may 2026 - may 2026

- Developed a Microservices-based E-Commerce Backend using Node.js, Express.js, and MongoDB with separate Register, Login, and Order services connected through an API Gateway.
- Implemented JWT Authentication and bcrypt password hashing to provide secure user login and protected order access.
- Configured HTTP Proxy Middleware for efficient request routing and communication between multiple backend services.

Real-Time Chat Application [🔗](#)

feb 2026 - feb 2026

- Developed a real-time chat application using Socket.IO for instant messaging and media sharing.
- Acquired hands-on experience in real-time systems, event-driven architecture, and backend development with Node.js.

UserAuthMongoDB [🔗](#)

nov 2025 - nov 2025

- Developed a secure user authentication system using Node.js and MongoDB for registration and login.
- Gained experience in authentication, authorization, and database integration with Node.js and MongoDB.
